

*My candle burned at both ends;
It will not last the night,
But ah, my foes, and oh, my friends
It gives a lovely light!
after Edna St. Vincent Millay*

Following a long battle, we – Brigitte Dourcy-Belle-Rose, his life companion, and Peter Denis, on behalf of the children Denis – inform you of the passing away of

Doctor Lodewijk (Louis) Jan Denis

born in Antwerp (B) on 20 January 1933
and died there on 28 July 2021

With sadness, but also grateful for his untiring social involvement, we commemorate his lifelong efforts for a medicine firmly grounded in science, and linked to total care, equal treatment and quality of life for all patients.

True to his philosophy of life and social commitment he donated his body to science. And he kept his joie de vivre and great sense of humor till the very last day of his life.

With gratitude for the years of professional treatment and total care by doctors N. Meyten, B. De Muynck, A. Surjadjaja, A. Anne and their team in ZNA campus Sint Elisabeth.

Also the MOC's ZNA Middelheim, UZ Leuven & NCI-USA, are thanked both for their professional and experimental support.

This message is your only notice according to the guidelines from the deceased.
